

2009

Operator comfort is enhanced by the deep cushioned seat, foam padded steering levers and the easy access control panel location on the fender.

Rugged steel welded frame and oversized front and rear tires offer improved durability and a smoother ride.

Convenient deck lift/height mechanism features standard foot assist for reduced effort when raising and lowering the deck.

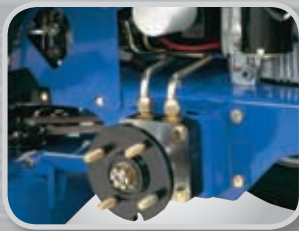

Narrow profile allows easy access through gated areas.

Fabricated cutting deck features 7 gauge steel construction, cast iron blade spindles and extra deep design for premium performance during cutting and clipping dispersal.

Removable dimpled steel foot pan for easy access to deck belt pulleys, spindles and clean-up.

Commercial rated pump and wheel motor transmission for smooth operation and improved durability.

Standard Fusion™ cutting blades stay sharp longer and are far more durable than ordinary blades.

Tight Spaces? The Black Bear® has you covered. This commercial quality workhorse is specifically designed to handle the confines of gated areas, small trailers or any application requiring restricted width. The welded steel chassis and 7-gauge fabricated deck along with premium engines and pump and wheel motor drive system create a ZTR® that is at the top of its class.

DIXON ZTR®
